

# MICHIGAN CHRISTIAN YOUTH CAMP

## Needs List

### Facility Upgrades

**LED Conversion** – Sponsor a room to help us save costs on our utilities. We are currently replacing our fluorescent lights in our dorms with LED tubes. A small room conversion is \$500 and a large room conversion is \$750. Arts & Craft and Leather Craft area conversions are \$1500 each.

**Sponsor one room or one dorm!! We have only dorms 1 & 4 left to complete**

**Lights for the Front Field** – Installation of new poles, electrical work, and LED lights to illuminate the front field for evening programs and winter games. **Estimated cost is \$4,000**

**Generator/s** – We are currently exploring permanent generators for the lodge, dorms 1 – 4, and dorms 5 & 6. **Estimated cost is \$65,000 - \$75,000 with Hawley Lodge at about \$35,000**

**Ductless Heating and Cooling** – Replacing furnaces is never fun. However, technology has brought us the possibility of ductless heating and cooling. Immediately we will be installing one in the Arts and Crafts room to replace an old furnace. Our goal is to install two in the basement of Hawley Lodge and as we move forward all furnaces will be replaced with this system. These units will allow us to have cool places for campers to relax and get out of the heat. **Estimated cost for the basement of Hawley Lodge is \$16,000**

**Leap of Faith Teambuilding Event** – Imagine standing 20 feet off the ground and jumping for a trapeze as your team belays you below! **Estimated cost is \$6,500**

## Summer Ministry Assistance

**Sponsor a Summer Staff Member** - We hire 30 staff members each summer to minister to the campers that come to MCYC. **Sponsor one staff member with a gift of \$2,000**

**Sponsor a Week of Canteen Goodies** – Canteen is a favorite place for every camper each day. Sponsor a week of yummy treats, drinks, and slush. **\$500**

**Sponsor a Week of Camp T-Shirts** – Every camper gets a t-shirt when they come to camp. **Help us offset this cost with a gift of \$500.** Approximate cost each week is \$875.

## Horse Program

**Horses** – We will need three to five new horses to start a consistent lesson programming for our riding stables. **Cost for each horse is approximately \$2,000**

**Run In's** – Having run-in's in our pastures will help us care for and provide better shelter for our horses. As well, a place for the horses to come get their food. **Cost for these are between \$1,500 and \$3,000 depending on size**

**This past fall we installed three new hay feeders through your support!**

These hay feeders help us extend the life of the hay bale and save us funds for years to come!!  
They will pay for themselves in 3 – 5 years!!

**New fencing for two pastures** – Supplies would be 4x4 posts, high-tinsel wire, and the supplies to do the job. **Approximate cost is \$4,500**

**Pavilion Structure to cover Riding Arena** – Our goal is to be able to offer lessons and increase the use of our horse program in the next 1 – 3 years with our local community. Thus allowing us an opening to share the story of Jesus. The cost for the structure is approximately \$75,000 to cover it and \$150,000 to enclose the arena for year-round use. **Total \$225,000 - \$250,000**

**For additional items you can go to our Amazon Wish List where you can find all sorts of small to medium sized items to help God's ministry at MCYC**
